

CAMS 06 Oct 2009 Meeting

CAMS met for our regular first Tuesday meeting at the South Side Sobeys Community Room. Seven regular members were in attendance and we welcomed Pat R into the circle. Pat a retired Air Traffic Controller dabbles in model trains and has returned to the hobby of building aircraft after many years.

The new website was a hot topic with everyone voicing their opinion as to what we needed to do to keep the site fresh. In the future we will be working on kit reviews, build blogs, member profiles as well as continuing our search for photos and articles for the CAMS Archives.

Kelly Magee from Capital FM has been approached and is interested in doing a radio story for her Sunday Morning Program promoting the club and its members. Bill K is also going to approach the Daily Gleaner about an article.

Steve M wowed us with his 65 Buick Riviera [\(check out the photos\)](#). As usual Steve did an outstanding job on the kit, which he calls just another shelf model - such humility☺.

Bill D gave a short tutorial on the different methods of displaying aircraft in flight or just on a display stand like a monument, interesting stuff.

Scott M brought a couple of new kits to pass along for a look, the 1/25 AMT Peterbuilt Wrecker and the 1/35 Hobbyboss AAZP-7 Recovery Vehicle. Some itchy fingers were seen as the kits made the rounds.

As is usual with our meetings, a little business was carried out, a few tips were passed along, some models were looked at, and generally a lot of talking and joking took place and a good time was had by all.
